Don't read my diary when I'm gone

OK, I'm going to work now, when you wake up this morning, please read my diary. Look through my things, and figure me out.

Dale, Count how many times i use the word "FUCK".

Hello, it is me saying, "everything is basically raining, dull, and OK!"

fuck we were this close to coming down to see the melvins play on the 29th but as History Repeats itself, Shelli being the overbearing dominator of Chris decided to not want to go at the last minute. and so gas money being split only two ways between Tracy and I would be too fucking expensive. are you coming to seattle Someday to play? YOU MOTHERFUCKERS BETTER STILL PLAY VILE VERMILLION VACANCY! or at least put it on the Next LP. any label interest yet? Alchemy seems to be in pretty sorry shape from what i hear. ever RAT Sub Core Dale Portnow? Dehumanizers? the reason i say this is because they must be hard up, for they signed DangerMouse! JESUSFUCKINGCHRISTALMIGHTY

So within the last couple of months our demo has been pirated, recorded, and discussed between all the seattle SCENE luminaries. and the Dude Johnathan Poneman (Remember the guy who called me when you were over the last day?) MR Big - money inheritance, Right hand man of Bruce Pavitt. and also SUB POP Records financial investor, got us a show at the Vogue on a Sub Pop sunday. Big Deal. but i guess hype and Regularly being played on KCMU probably helped, the amount of people who came to Judge us. not be at a BAR, Get drunk, watch some bands & have fun. But just watch the Showcase event. 1 hr. ~~We~~ there was a representative from every Seattle band there just watching →

OH OUR LAST AND FINAL NAME IS **NIRVANA** ooH eeerie mystical Doom

We felt like they should have had score cards. And so after the set Bruce excitedly shakes our hands and says "wow Good job let's do A Record". [redacted] then flashes of cameras go off And this Girl from BACKLASH says "Gee can we do an interview?" yeah sure why not. And then people say Good job you Guys are GREAT And NOW were expected to be total Socialites. meeting people, introducing etc.. **Fuck Im in High SCHOOL AGAIN! I want to move BACK to Aberdeen.** NAN olympia is just as boring and I can proudly say ive only been in the Smithfield About 5 times this year. And So because of this Zoo-event wevie at least gotten A contract for 3 song A single to be put out by end of August and an EP out in sept or oct. were gonna try to talk them into An LP. NOW Johnathan is our manager, he gets us shows remotely in Oregon & Vancouver. He's paying for all recording & distribution Costs & now we don't have to have outrageous phone Bills. Dave is working out ok. Sometime next year Sub pop is gonna have A caravan of 2 or 3 Seattle Bands go on tour. yeah we'll see. [redacted] Thru your past experiences Do you think it would be wise to demant receipts for recording, pressing costs? Enough About Records OH except this one night last month, Chris And I dropped Acid And we were watching the late show (rip off of Johnny Carson) And Paul Revere And the Raiders were on there, they were So fucking stupid! Dancing Around with moustaches, trying to ACT comical and Goofy. It really pissed us off and I Asked Chris Do you have Any Paul Revere & the Raiders Albums?

YEAH punctuation, I was stoned alot when I was learning that stuff.

He said yeah, so I looked thru his Big collection and found the Revere Records and busted them. and he got mad, then he laughed and I searched three the rest of the Row and found Eagles, Carpenters, Yes, Joni Mitchell and said with frustration, "what in the FUCK do you own these for? and so throughout the rest of the night we busted about 250 shitty Chris Novoselic Records. not only did we clear more space in the living room, chris declared that he feels cleansed and revitalized.

The First song on the Dumo is no longer played it is sickening and Dumb. Destroy it it is evil. in the likes of white SNAKE and Bon Jovi

I don't hang around with Ryan or the other Aberdonians but when im in town I'll get your Soundgarden Record for you. We still make movies, the last one we did was in Tacoma at NEVER NEVER LAND. it's a surrealistic fantasy story book place for kids, and we made shelli wear a mask of cher's head cut out of an album and dance around by big mushrooms and butt fuck the wolf bending over to blow down the three little Pigs house. other stars included Rick Derringer and John lennons Penis. No comment on Matts band MUDHONEY just to be on the SAFE side. speaking of safe sides my Girlfriend Tracy now has a Brand New "88" Toyota [redacted] Tercell, A microwave, food processor, Blender, and an espresso machine, I don't have a job until next month thru TYSS youth service in a printshop Part time, I AM A TOTALLY pampered spoiled BUM NEXT letter will be less boring about Record deals and [redacted] more stupid drivel

they weren't as gross as G.G. Allin but they held their own to say the least. The tension grew because of a delay with the P.A. which helped the release of tension when the first couple of notes of school were struck. people instantly rocked back and forth with eyes closed & beers clenched then spilt. 5 roadie friends had to lock arms behind the P.A. cabinets & rock in a wave pushing the crowd in hopes that the band wouldn't get hurt. But they did.

Kurdt the vocalist & guitarist screamed his last scream to the 2nd song then BAM the crowd smacked the mike into his mouth. Blood oozed from his lip but they instantly started floyd the barber after wiping kurts face. Chris the bass player accidentally hit kurt in the eye with his bass headstock it wasn't too deep at first until kurt rammed his head into the wall next to him in protest. it opened more. so kurdt took his guitar & hit Chris straight in the mouth causing a big cut lip. By now they were pretty bloody. Chris looking worse and with only one wound. they were obviously becoming dizzy and were in pain. but proceeded to play the set quite out of tune

A band needs to practice, in our opinion, at least 5 times a week if the band ever expects to accomplish anything.

We're tired of total uncertainty everytime we play a show, We think..."Are we going to suck"? "Are we tight yet"? We have shows and we don't practice! The two main reasons are, Chris and his work and you and your location. Chris can eventually alter his work schedule and at least practice every week night.

When we started with you, you claimed you could make it up 4 times a week and would move up here by July or August and it would be no problem for you. We were very hesitant to ever try this because of our experience with driving back and forth to Aberdeen and we knew it would eventually get on your nerves.

We don't blame you at all for being tired of driving, and we realize what a problem and hassle it is to get someone else to drive you up, but even if you could make it up every day we don't start until 8:30 or 9:00, which is not enough time to even go through the set. We know how long it takes to build a house and you won't move up here as soon as you have claimed, and in our morals and values, fixing up a race car isn't half as important as getting to practice or recording or Touring.

→

We also aren't convinced that you would get time off, or quit your job next winter to go on tour. The overall aspect of this situation is nothing more than selfish. Getting a name on a record isn't shit. Anybody can do it, but theres a big difference between credentials & notoriety, and self respect through music.

Instead of lying to you by saying we're breaking up or letting this go any further we have to admit that we've got another drummer. His name is Chad, he's from Tacoma and he can make it to practice every night. Most importantly, we can relate to him. lets face it, you are from a totally different culture.

Our hobbies and interests are different, and a band can't be a unit unless all the members are compatible. We have really appreciated your loyalty and dedicated attempt at keeping this band alive. You've a great drummer and we hope you pursue another band very soon. We expect you to be totally pissed off and hate our guts and we don't blame you, because this is very sudden and we have not tried to warn you that this was happening. This is not your fault. It's ours. We should have known it wouldn't work, but your enthusiasm and clear headed thinking made us want to try it. and we feel →

5-29-88

really shitty that we don't have the guts to tell you in person. But we don't know how mad you would get. All the luck to you and Laney and your drumming career. And if you wouldn't mind, we would like to suggest to other bands looking for drummers to check you out because your talent shouldn't go to waste.

Please let us know when it is in your convenience for us to bring your drums & mic down. When you want to discuss this with us call.

Sorry.
Kurt
Chris

P.S. Lani - Thanks for driving Dave up all the time - I know what an awful drive it is. Shelli & I enjoyed spending time with you while they were practicing. Call us sometime & we can get together and do something.

mark,
Hello. It sounds as if
everything is working out (SURE!) with Donna.
I can't wait to see & hear the
results! Well i finally have
heard almost all of your albums
except all of the beathappening/Trees EP
I hope you don't mind but I
recorded them on the dreadful
CAssette TAPE. which is something
Im kind of Against people doing, because
it's not supporting the band. but
I swear! If I ever get A job Im
sure Ill buy All the records.
~~[illegible]~~
Well, ON the BACK of the Clashs 1st LP
it SAYS: home taping is killing the
music business [cassette] oh! wow.
This stuff on the tape (SONG) is some 4tuk
mello pretty, sleep music, I've been
doing for the past couple of months.
It's obvious that it was been inspired
from beathappening/ Young Marble giANTs music.
IF you like some of it or if you have
something of your own in which you thought
I would be Appropriate for ~~the~~ Collaborating
then Im willing.

~~Hopefully~~ ~~We~~ NIRVANA is planning on Asking Calvin if he wants to put out A (IC) Cassette of these songs & A couple obscure heavy songs too.

because ~~we~~ we feel like were not Accomplishing Anything by playing the Seattle Club Circuit & It turns out that our single will be out in Oct. (Buzz-bi, cheers) but there isn't much hope for An EP within the near future, for SUBPOP is having financial problems and the promise of An EP & LP within the year was just A bullshit excuse for Johnathan to keep us ~~from~~ from scouting other labels. & So here it is 8 months later & we finally put out A damn single. Weve sent the demo to A few labels. but NO Response.

So if you have Any numbers or Addresses or if you meet someone & give them A demo It would be greatly Appreciated. We have About 30 bulk recording tapes & Any postage & handling will be gladly paid. We just feel like were becoming Stagnant in Olympia with no record. ~~(X)~~

UNCERTAINTY like opening your eyes wide in the dark then closing them hard then open and blinded by the spartling silver dots created from pressure on the corneas, squint, Roll, focus, then your Blind again but at least you saw light somehow. maybe ~~it was stored~~ the light was stored in the sockets or held in the iris or clung to the tips of all the nerves and veins. Then your eyes close again and an artificial light appears before the eyelids, probably just a light bulb or a blowtorch! jesus its hot! my lashes and brows are curling up and melting emiting the worst smell of burnt hair and thru (in my eyelids) the Red transparency of the light I can see a close up view of Blood cells move as I move my eyes back and forth like footage of a documentary of Amoeba and plankton Jelly like Jeethry life forms moving man they must be small I cant feel them my eyes must be able to see things MORE clearly than I had expected it's like a microscope but it doesn't matter anymore cause they set me on fire now yep Im sure of it Im on fire God damn. In A last Attempt to make it clear that this girl did not have downs syndrome or a monzoloid, there is proof that Lakeside high school does not or ever has had the facilities to teach those cronic retards. in fact Darrin, Ace, And Trevor were also in one of her classes & she also had regular classes for normal people.

A lot of NAive asshole kids just called her retarded because she never talked. [illegible] labeled & mistaken

The object of the guys who had been going there for the past month was to steal booze from the down stairs basement den.. while others distracted her by opening cupboard doors & pretending to eat all the food, one would go down & take A 5th & then exit out the downstairs.

It was basically A gift to Trevor the pot overlord who enjoyed pot not quite as much as booze, and to his helpers & I A reward of getting high in the woods near the school was always promised if we stold booze for him. Only being stoned within that week for the first few times was what I claimed As "something I will do for the rest of my life!!" And I would practically do Anything to ensure my supply of the fantastic weed. So we did this routine every other day & got away with it for ~~quite A long~~ About A month →

And during that month [redacted] happened to be the Epitomy of my mental abuse from my mother. [redacted] before. It turned out that pot didnt help me escape my troubles too well anymore And I was actually enjoying doing rebellious things like stealing this booze & busting store windows getting in fist fights etc.... & nothing even mattered. I decided within the next month I'll not sit on my roof and think about jumping but ill actually kill myself And I wasnt going out of this world without actually knowing what it is like to get laid.

So one day after school I went to her house alone, and invited myself in And she offered me some twinkies And I sat on her lap and said "let's fuck" And I touched her tits And she went into her bedroom and got undressed in front of me with the door open And I watched & realized that it was actually happening so I tried to fuck her but didnt know how and asked her if she had ever done this before And she said a lot of times mainly with her cousin.

I got grossed out very heavily with how her vagina smelled & her sweat reeked so I left. My concience grew to where I couldnt go to school for a week And when i went back I got in-house suspetion in the office for skipping and that day the girls father came in screaming & accusing someone of taking advantage of his daughter

& they went in the principals office And yelled At eAchother & they CAme out with A yeArbook & were going to have her pick me out. but she couldn't because I didn't show up for pictures thAt yeAr. & so during lunch the rumors stArted And by the next dAy She told my nAme And everyone WAS WAiting for me to yell & Cuss & spit At me CAlling me the retArd fuckeR'.

Because A lot of people liked me the sides were even but I Couldn't hAndle the ridicule so on A sAturdAy night I got high & drunk & WAlked down to the train tRACKS & lAyed down & WAited for the 11:00 trAin & I put 2 big pieces of cement on my chest & legs & the train came closer & closer. And it went on the next tRACk beside me instead of over me. So I rode the bus to Lakeside School from Jenkins Lane every dAy pretending to go to school & doing Acid instead WALKing in the woods, So my mom would think I WAS going to school & the cops stopped me one night At A footbAll gAme & I went down to the stAtion & they tAPe recorded my confession of WhAt I did And sAid thAt her fAmily CAn't do Anything because She WAS 18 And not mentAlly RetArded. But tension from school mAde me have to Attent Jenkins sChood And the trAin scAred me enough to try to rehAbilitAte myself & my GuitAr SCRAPED playing seemed to be improving so I became less mAnicAlly depressed but still never hAd Any friends because I hAted everyone for they were so phony.

Jesse Hello,
Believe me, I have purposely been delaying writing you for a while so when our single finally comes out I could send it to you as well as a letter. But God time flies and Sub Pop is broke and full of shit, and I didn't realize how long its been since I received your letter. So I'm sorry!
Hey Cheer up dude, your letter sounded like you're kinda bored.
I can't wait until you come down for Christmas, it will be the most exciting ~~#~~ event this year. We got our test pressings back for the single, I've been waiting for so long that I'm not even ~~looking forward to~~ it coming out. We've Refused to do anything else with Sub Pop even though they really want us to put out an EP. We've decided to put out our own LP. We found a record pressing plant that will press 1000 records for $1,600.00. So at $8.00. A piece we only have to sell about 250 records to get our money back, And the rest is pure profit, then All we have to do is find a distributor.
We played with the Buttholes Surfers. And then D.O.A in Seattle. The Melvins are coming back to play a couple shows with us.
Chris and Shelli broke up. God Am I relieved! She is still living in Tacoma

and Chris is temporarily staying in Aberdeen for free at his moms. Im very content with the relationship Chris, Chad and I have, we get along great and have a lot of dedicated fun. We are becoming very well received in seattle & other places in WASH. Promoters call us up to see if we want to play, instead of us having to Hound people for shows. Its now just a matter of time for labels to hunt us down, now that weve promoted ourselves pretty good by doing small Remote tours. OK. enough about the band.

Ive got a janitor job, working with this older guy cleaning 4 restaurants. pays cash under the table part time.

Tracy and I get along just fine, as usual. Lately Ive found myself becoming lazy. Kurdt-Guitar/Voice and Chris-bass have struggled with too many undedicated drummers for the past 3 years, performing under such names as: Bliss, throat Oyster, Pen Capck Ted ed Fred etc.. for the last 9 months we have had the pleasure to take Chad-drums under our wings and develop what we are now and always will be NIRVANA.

3 regularly broadcasted carts on K.C.M.U (Seattle College Radio also KAOS olympia)
Played with: Leaving Trains, Whipping Boy, Hells Kitchen, Trecherous Jaywalkers & Countless local acts.

I remember in the summer of ~~82~~ or 85 there was this extravaganza of a rock-like woodstock Concert held in some far away exotic land featuring all the contemporary Hard rock acts like ACDC or Van Halen. To the stoner world it was a big deal but for me it was Something a joke I didnd pay much attention to it but I remember my friends staring up to the sky during the weeks prior to this Gathering that this festival is with ~~a~~ fear ~~empty~~ of empty ~~unrealizable~~ dreams never to be apart of their hanging out of the smoker shed reality. in other words there wasnt a chance in hell that they'll save up enough pot money to make the long trek to the ~~fatherland~~ promise land of the US festival

I remember ~~this~~ hanging out at Montesano Washington's thriftway when this short haired ~~employee~~ ~~boy~~ employee boxboy who kinda looked like the ~~kid~~ Guy in Air Supply handed me a flyer that read: "the Them festival. tomorrow night in the parking lot behind Thriftway free live Rock music

The MeLVINS Are Alive

WORDS suck. I mean, every thing has been said. I cant remember the last real interesting conversation ive had in a long time. WORDS arent as important as the energy derived from music, especially live. I dont think ive ever gotten any good descriptions from lyric sheets, except WHITE ZOMBIE whos lyrics remind me that theres only so many words in the English language, and most good imagery has been used, as well as good band names, LP titles and not to mention the bloody music itself. GEE, I dont want to sound so negative but were dealing with the MELVINS. IN one live MELVINS performance you wont be able to understand very many words, as is with any band) but you will FEEL the negative ENERGY. Music is ENERGY. A mood, atmosphere. FEELING. The MELVINS have and always will be the king pins of EMOTION. Im not talking about fucking stupid human compassion, this is one of the only real istic reminders that every day we live amongst VIOLENCE.

There is a time and place for this music. So if you want to shake your groove thang to simple primal rock, then go see a fucking bar band! The MELVINS aint for you. And they probably dont want ya.

Like I said im not too hip on lyrics, so I didnt ask them about lyrics. Aparently their lyrics are almost equally important as the music. In their case I have to agree, even though I can hardly decipher any of the words, I can sense they display as much emotion as the music and therefore I hypocritically plead to you "BUZZ", On the next record have a lyric sheet, and if you need, have an explanation for every line. Im shure a lot of kids would dig it. man.

Speaking of BUZZ, he looks better in an afro than that guy in the movie CAR WASH. Im thinking he should take advantage of this blessing and be the first to go beyond the hip hops shaved symbols and architectured genious of scalp artistry and SCULPt a wacky far out cactus or Bull Winkle antlers.

He writes the songs, riffs first, lyrics second and goddamn is they good! Hes an all around nice guy.

DALE lost weight, bleached and chopped his hair. He plays even harder and an all around NICE GUY.

LORI kicks John Entwistles butt, and is all around nice guy.

They enjoy the GYUTO MONKS , Tibetan Tantric choir.

One of the only forms of religious communication in which I have been emotionally affected by along with the MELVINS and uh maybe the STOOGES or SWANS raping a slave EP'. The only good thing MICKEY HART ever did was to bring this sacred group of monks on a tour in which ive heard from many, seemed like an impersonal circus or freak show. Oh well they needed money to build a new monestary. They probably didnt notice the yochie dead heads hanging out in the audience. yuk!

The special technique in the monks vocalization is a long study of producing three notes or a full chord in the form of long droning chants. It makes for a soothing eerie feeling.

This is an interview that was written several months after matt left the Band in ~~se~~ oct.

Dale,
Kenichewah,
OKAY, I have not lost my soulful, imbeded roots as an honorary punk rock, hard, heavy, Gunka Gunka Gunka music slut. Nor have I been sucking up the cute, innocent and clean image Olympia has to offer either, but I have learned to appreciate some of this Calvin/Simplistic stuff enough to do my own rendition, which is actually something Ive been planning on doing for years, so it's not really a rip off or a ~~[illegible]~~ borrowed influence. Im making up excuses because I dont think youll like it, but I sent you it anyhow just to fill up space, ~~[illegible]~~ for I dont have much new music to let you hear. So anyways.. "How the Hell ARE you doing dale crover master of DRUMS?"

Send me boom box stuff NOW! I dont think too many people will think you guys will suck, like you said the legworshipping whores might, but B.F.D!

Chris and I were wandering around the campus one saturday evening, and we came across this band playing. Inside we found 3 greeners jamming on bad psychedellic blues, because thats what Greeners do on Saturday evenings. They showed us their new $200.00 worthless whammy pieces of shit KRAMERS & NEW Laney Amps, I wasn't impressed. And then over in the corner I noticed a left handed late 60's fender mustang. After swallowing my puke I calmly asked if they wanted to sell it and they said... "Oh that old piece of shit?" "I dont care $50 bucks."

Chris entered the conversation and said, "I don't know man it's pretty junky." "OK Twenty bucks. it's only pawn shop material anyways. It's nothing compared to our new KRAMERS.

So Chris and I Ran blindly through A thick forest towards the light and to the VAN and to A bank machine and bought the pre CBS "65" left handed fender mustang. The END

My Amp blew up. I got 2 more evel knievel motorcycles. Rapeman. RAPEMAN! RAPEMAN! I don't have any of their stuff on tape yet. probably because they don't have anything out. but Rapeman Are steve Albini on guitar/vocals (from Big Black) & the drummer & bassplayer from scratch Acid. I SAW them last weekend and I think they Are one of my favorite bands. I'll have to wait until I hear them on Record. but god damn they were fucking cool live!

I defrosted the icebox with A hammer.

hours later Tracy noticed an awfully powerful fume & so we thought it was Free-on so we got the animals outside & the fumes became so bad that we couldn't go in the apt At All. it started to burn our skin & so we stayed next door for 1 night & in TACOMA the 2nd night & turns out it wasn't free on but even more of A deadly gas called Sulfer dioxide. It's like if you were to fill A bucket of Bleach & Ammonia & tie someones face to it. I left A butterscotch swirs miss pudding out over night & it turned Bright flourescent green. So don't beat on your ice box with A hammer.

I talked to Jesse Again. He's not getting A divorce Anymore, instead he's buying more credit cards.

"MONTE VISTA" SO TACOMA WA

The name even reakes of Suburban subdivision Hell. I walked into the place to buy a patch cord. After I bought it I noticed a bunch of amps behind a sliding glass door. There were new Peavy's marshalls Fenders. After Canking at the list price I checked out the used amps. I noticed an old Fender. It's the kind that's about four Feet tall and has SIX tens in it. It's basically a twin reverb. So I closed the door, plused in the ~~old~~ cheap Peavey tryout gee-tar And fucked around with the reverb & tremolo. It sounded pretty cool kind of like the Cramps. Shit it was only $200.00, ~~It~~ kind of bent, so I was interested. ~~So~~ Fuck it, I cranked it up way loud to see what kind of balls it had. Right then mr. Suave Coolo ~~Fucked~~ Friedly yo store dude walked in and turned it down. ~~He~~ He had a shit eating grin on and said "Jams eh". I said "yeah man."

"Can I put this on Lay-a-way!"
He said "Sure $20 bucks down
15 bucks a week for ninety
days!" "Far out" He went away
so I cranked it again, so he
walks back in with his diahareha
smile and turns it down.
what a dick I should have
thrown it threw the godamn
sliding glass door. I said
Sheeeatt! I left. That old
Fuckin Fender would a blew any
way.

Hi Eugene,

Im staying at a friends house here in Olympia listening to a crappy college radio show. Ive realized that its not because there are no good bands but because the DJs have Bloody awful taste in music. OH yes, and to prove my point, right now theyre playing a NIRVANA song from Nevermind.

Hows Captain America? I hear were playing some shows together when we go over to England. I cant wait! were really looking forward to it. all our friends will be there at Reading. mudhoney Raters in Taylor sonic Youth, Iggy etc. Ashure blow out!

Well, we won the WAR.

Patriotic Propaganda is in full effect. We have the privilege of purchasing Desert Storm trading cards, flags, bumperstickers and many video versions of our triumphant victory, When I walk down the street I feel like Im at a Nuremburg rally.

Hey, maybe Nirvana & Captain America could go on tour together in the states and burn American flags on stage. well be going out again in Sept If youre interested, Ill keep you posted. well, heres the live Mollys Lips 7" I find it embarrasing because its just simply a bad version but it was a great privilege to play one of your Songs and to play together at a show and to meet you all. It was easily the GREATEST MOMENT of My life

The Ulselins have been my favorite #1 band for a long while now and and Geez. I cant wait to see you all soon and thanks for writing.

I got evicted from my apt. I'm living in my car so I have no address but here's Chris's phone number for messages

Hi, I like punk rock more than anything in the whole wide world. and so I thought I'd would xerox words on paper & staple them together and sell them to punk Rockers & others who dont know much about Punk Rock and for those who dont care or who dont deserve the privilege and also to those who are Bored with it.

I Also dont know very much About punk Rock as far as the History is concerned But I do have AN OPINION on what Punk Rock means to me it means Freedom from:

Well, me too. I'm bored — or just uninspired, maybe were just taking a break, a rest or recovery from Hardcore. I never really liked hardcore, mainly because it was too macho and there were so many intimidating rules. I remember when I first started hanging out with friends who were a few months more advanced in proper punk rock lingo & etiquette, I said, "hey lets listen to some punk," and this guy said "man its not called punk anymore its called HARD CORE! Gee, I felt like a heel. HARD CORE was an obvious mutation of 77 punk because punk popularity reached the suburbs and then all of a sudden jocks who already had short hair from the wrestling team got involved because

it was supposedly an easy energy release and an excuse to fight. I could probably explain why I never liked hardcore in a million different ways but lets just say it wasn't my cup of TEA, All you have to do is read ~~AT~~ the letter section from MAXimum RocK-N-Roll from the past 6 years and you may understand what I mean.

Dispensable as recycled toilet tissue, they breed like rabbits and their hands will be sent back attached to key chains. If Jimmi Hendrix were alive he would more than likely have a long back (bi level) hair cut and slick, sequin threads sporting a new Aerodynamic-90's guitar with zebra stripes and a pointy headstock. Iggy pop at a recent gig in L.A. Jammed with slash from Guns n' roses on a 20 minute rendition of louie louie.

The journalist left a red ~~circle~~ circle, imprint from the camera lens on the forehead of a mother who has 5 sons in the persian gulf. She was asked to describe just exactly how she feels of this situation while holding her sons military portraits in her lap. A student listening to old R.E.M watches the mother on T.V. and becomes exited by the idea that has just burst from his environmentally & socially ~~conscience~~ mind: "maybe there will be reason now for A revolution!

I like following the rise of entertainers careers while they ~~struggle~~ prevail to MAKE it, ~~white in their early to late twenties~~. I like to know everything about them, and if enough information isn't available, then tabloids will be sufficient.

But my body And mind won't allow me to TAKE them

I like punk rock. I like girls with weird eyes. I like drugs. I like passion. I like things that are built well. I like innocence. I like and am grateful for the blue collar worker whos existence allows Artists to not have to work at menial jobs. I like killing gluttony. I like playing my cards wrong.

I like various styles of music. I like making fun of musicians whom I feel pladgerise or offend music as art by exploiting their embarrasingly, pathetic versions of their work. I like to write poetry. I like to ignore others' poetry. I like vinyl. I like nature and animals. I like to swim. I like to be with my friends. I like to be by myself. I like to feel guilty for being a white, American male.

I love to sleep. I like to fill my mouth with seeds and spit them out at random as I walk. I like to taunt small, barking dogs in parked cars. I like to make people feel happy and superior in their reaction towards my appearance. I like to feel predjudice towards people who are predjudice. I like to make incisions into the belly of infants then fuck the incisions until the child dies.

I like to dream that someday we will have a sense of Generational Solidarity amongst the youth of the world. I like to make insidious efforts to Avoid Conflict. I like to have strong opinions with nothing to back them up with besides [redacted] sincerity.

I Like sincerity. I LACK sincerity. these are not opinions. these are not words of wisdom, this is a disclaimer, a disclaimer for my lack of education, for my loss of inspiration, for my unnerving quest for affection and my perfunctory shamefullnes towards many who are of my relative age. Its not even A poem. its Just A Big pile of shit like ME.

I like to complain and do nothing to make things better. I like to blame my parents generation for coming so close to social change then giving up after a few successful efforts by the media & Government to deface the movement by using the mansons and other Hippie representatives as propaganda examples on how they were nothing but unpatriotic, communist, satanic, inhuman diseases. and in turn the baby boomers become the ultimate, conforming, Yuppie hypocrites a generation has ever produced.

I like to calmly and rationally discuss my views in a conformist manor even though I consider myself to the extreme left.
I like to infiltrate the mechanics of a system by posing as one of them, then slowly start the rot from the inside of the empire.
I like to assassinate the lesser of two evils.
I like to impeach God.
I like to Abort christ.
I like to fuck sheep.
I like the comfort in knowing that women are generally superior, and naturally less violent than men.
I like the comfort in knowing that women are the only future in rock and roll.

I like the comfort in knowing that the Afro American invented Rock and roll yet has only been rewarded or awarded for their accomplishments when conforming to the white mans standards.
I like the comfort in knowing that the Afro American has once again been the only race that has brought a new form of original music to this decade! (hip hop/RAP.

censorship is VERY AmeriCAN.

I have met many minds able to store and translate a pregnantly large amount of information, yet they haven't an ounce of talent for wisdom or the appreciation of passion.

The conspiracy towards success in America (~~unfortunately~~) is immediacy. To expose great in repetition to the minds of small attention spans. fast, speedy, now with even more NAcho cheese flavor! here today, gone tomorrow because yesterdays following was nothing more than a tool in every individuals need for self importance, entertainment and social rituals. ~~Things~~ Art that has long lasting value cannot be appreciated by ~~the~~ majorities. ~~Because~~ only the same, small percent will ~~appreciate~~ value ARTS patience as they always have. this is good. the ones who are unaware do not deserve false suggestions in their purchasing duties.

tips

~~music has nothing to do with a musicians personal beliefs, it is not an extention of personality or history or~~ ~~feeling~~

Scenarios revolve. Verbal communication is exhausted. Sit coms are scenarios and so is our conversation. ~~To gather~~ ~~for a party together to~~

our party gathers ~~to congregate~~ out of boredom. role playing for affection & acceptance and to disinfect nagging germs ending in silence, and accomplishment-produced violations on those who werent here to play. they were invited, maybe in a museum far from now.

I am now in my sad stage, before it was naive hate. I want to be the first to discover and discard before its popularity. Tomorrow the I wont care stage is predicted, and im not looking forward to it. maybe vegetables will diffuse the chemicals ~~which produce~~ i produce inside me, an easy excuse, (these chemicals.) I rarely use my instrument. it used to be so exciting. working on music is not a chore. It's now a waste of time to practice. Every other month I buy the results from the Air.

Ask not what you can do to your rock star.

We saw "Over the Edge."

Over the edge is a story of troubled youth, vandalism, parental negligence, and most importantly real estate development dysfunctional families

Its true in a sense that you can make a comfortable living at it - ~~but other than that it's not the same thing as the same~~ of a profession. But besides financial security it really isn't that wise of a profession. One of the main problems I have is that I feel like im being evaluated ~~because~~ 24 hrs a day, being on stage is hard work and the acclaim itself isn't worth it unless you still like playing And I do god how I do love playing live, its the most primal form of energy release you can share with other people besides having sex or taking drugs. So if you see a good live show on drugs and then after that evening have sex, you've basically covered all the bases of energy release, And we all need to let off steam, it's easier and safer than protesting Abortion clinics ~~or~~ praising God or wanting to hurt your Brother so go to a show dance around a bit and copulate

I think im dumb - or maybe just happy

my heart is broke but I have some Glue
Help me inhale & mend it with you
well float Around & hang out on clouds
then well come down & have A hangover.

Skin the Sun & fall Asleep
breathe AWAY - ~~your~~ the Soul ~~cheap~~ cheap is weak
lesson learned - ~~take me to hell & fuck~~ wish me luck
Soothe the burn - WAKE me up

Ive been told that an artist is in need of constant tragedy to fully express their work, but Im not an artist and when I say I in a song, that doesnt neccesarily mean that person is me and it doesnt mean im just a story teller, it means whoever or whatever you want because everyone has their own definition of specific words and when your dealing in the context of music you cant expect ~~universal meanings~~ words* to have the same meaning as in everyday use of our vocabulary because I consider music art and when I say "that song is art!" I dont mean in comparison to A painting because I feel the visual arts are not nearly as sacred as the transcribed or Audio communications, but it is art and ~~[illegible]~~ I feel this society someone has lost its ~~most valuable~~ sense of what art is, Art is expression. in expression you need 100% full freedom and our freedom to express our Art is seriously being fucked with. Fuck, the word fuck has as many connotations as does the word Art and ~~Im~~ far beyond the point of sitting down and casually explaining this problem to the Right wing control freaks who Are the main offender of destroying

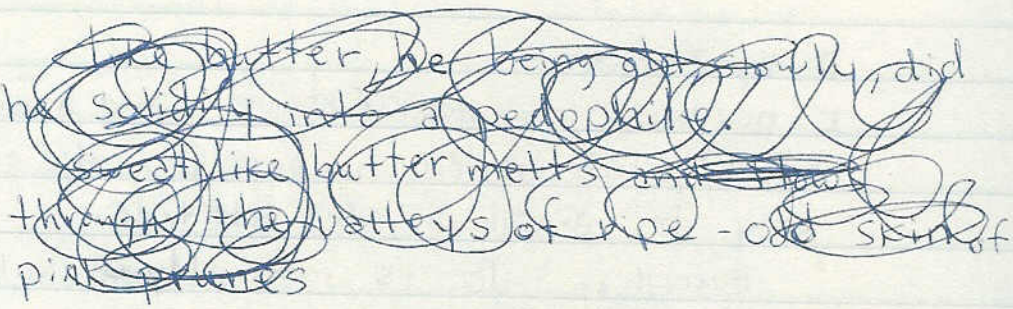
Art. I ~~can't~~ wont calmly and literally
Complain to ~~you~~ you! Im going to fucking
Kill. Im going to fucking
Destroy your MACHO, SAdistic,
SICK Right wing, religiously
Abusive opinions on how We
AS A whole should operate
According to YOUR conditions.
before I die
MANY will die with me and they
Will deserve it. see you
IN Hell love kurdt
Cobain

thanks for the TRAgedy I need
it for my Art.
punk Rock is Art ~~the problem~~
punk Rock to me means freedom.
the only problem ive had with the situationists
a punk rock issue is that Absolute denial
~~of~~ Anything is sacred, I find a ~~lot~~
few things sacred ~~like~~ such as
the superior ~~of~~ women and the negro
~~have the things they've made~~ contributed
to ~~the~~ Art. I guess what im saying is
that, Art is SACred.
punk rock is freedom
expression And right to express is vital
Anyone CAN be artistic.

displacement - Belittlement

I have a lot to say, but ill leave that to you, I'll leave that to those who have their whines the ability to expound better than I.
The facts to back up the complaints and the patience to debate, the impossible deprogramming of the plantation owners, their workers and their slaves.
The slaves born into their world ~~unque~~ un-questioning, ~~not~~ unaware through their generations acceptance of "thats just the way it is", stripped of culture in the pen, bred in a pen and losing ink, but refilling ~~to~~ prey of disposable goods and pray of the dispensable through the faith given by the feudal lords, "take it or leave it." impulse "like it or lump it." "I brought you into this world and ill take you out." "I'll be the judge of that." No instinct to escape, crawling over eachother in an overly populated tank, just lying there waiting to be fed eating more than you need and wanting more cause you never know if its ever going to come again. Breeding & eating & waiting & complaining & praying, ~~[illegible]~~

Poem: 22 This is DAVE



starting from the arm pit of an old man,
in a rush of slow motion - flood gates,
blown wide-open. Sweat butter melts downward
through the valleys of ripe, pink-prune skin,
wrapped loosely around his marble Brittle arm.
congregating at the tips of uncut,
Jaundiced fingernails, beads meet and
Breed, then jump to their death.
they land as A Splash on smoothe thighs
of infants Lying limp on beds of mo-hair
dirty books made him solidify into a pedophile
Coalate Corelate Solidiphile into A Pedofile
Correlate Coralate
Corilate
Im not well read, but when I do
read, I read well.

I dont have the time to translate
what I understand in the form of conversation,
I had exhausted most conversation at age nine.
I only feel with grunts screams and tones and with
hand gestures and my body. im deaf in spirit.

~~I keep myself~~

I purposely keep myself naive and away from earthly information because its the only way to avoid a jaded attitude.

everything i do is internall~~y~~ subronciously because you cant rationalize spirituality we dont deserve this privilege

~~I can only feel.~~

I cant [redacted] speak, I can only feel. maybe someday Ill turn myself into Hellen Keller by puncturing my ears with a knife, then cutting my voice box out.

If you want to know what [redacted] the after life feels like, then put on A PARACHUTE go up in a plane, shoot a good amount of heroine into your veins and immediately follow that with a hit of nitrous oxide then jump.

or, set yourself on fire.

If is time now for all the 'fortunate ones, the cheerleaders and the football Jocks to strip down naked in front of the entire school at an assembly and plead with every ounce of their souls for mercy and forgiveness, to admit that they are wrong. They are representatives of Gluttony and selfish ~~animalistic~~ values and to say that they are sorry for condoning these things will not be enough, they must mean it, they must have guns pointed to their heads, they must be petrified to ever think of being the stuckup, self righteous, segregating, guilt spreading, ass kissing, white, right wing republicans of the future.

They had hair down there long before I stopped playing with dolls. I havent mesturbated in months because Ive lost my imagination. I close my eyes and I see my father, little girls, german shepherds & TV news commentators, but no voluptuous, pouty lipped, naked-females sex kittens, wincing in ecstasy from the illusory positions Ive conjured up in my mind. Homage or Ripoff? I dont care, Uh, I dont know. Seems like finally the appreciation of things are in order. there are a lot of things & bands to be thankful for, yes, and everything sucks. Too many compilations of present day bands paying homage to old influential bands, Either there are no good ones left to look forward to or finally the undergrounds p-rock admittance, to appreciation ~~instead~~ of Everything Sucks!

Clones of old, and the younger generation never hardly heard old Aerosmith records or Rod Stewart & Small faces so they have no ~~[illegible]~~ sense of plagiarism in the "now" bands paying homage (supposedly) or keeping the faith.

Slowly rot the machines of the empire

Hi Eugene,

Its eight o clock in the morning, that means its almost time for bed. Im on this ridiculous sleeping schedule where I retire in the wee hours of morning and successfully avoid any hint of daylight. my skin is goth rock pale. I dont know if you have these things in Scotland but im considering joining a tanning bed salon, they are coffin beds with haloid or flourescent light bulbs built into the sides and lid. You lye down inside to fry away turning a crisp golden brown. we call them nuclear tans.

lately my nipples have been really sore, can males lactate? How have you been?

As you probably know, we recorded mollys lips & son of a gun for a peel session and we were wondering if we could use the recordings for a promotional EP hopefully to be released in a few months. We dont expect to make a profit off of it because were keeping the price down, It's mainly a feature for our supposedly hip-alternative debut single 'IN Bloom', if the EP will have (if consented by BMG) IN Bloom, Sliver, D-7 by the wipers, Turn around by Devo, mollys lips and maybe son of a gun. If we do make any money off of this then we'll surely devide it amongst the bands or we could talk about up front advance for the use of the songs or whatever, it's legit!

were not on Sub Pop any more, our new label is DGC (Geffen) we are label mates with Nelson!

I know this is starting to sound too business like but I want you to have something for giving us this [redacted] great honor to play your songs, they mean a lot to me. Without trying to be too embarrassingly sappy [redacted] I have to say the songs you and frances have written are some of the most beautiful songs ever and it just feel like everyone should hear them. Heres what the cover might look like →

I had a really fine time at the show we played together the video turned out good. you wont a copy? oh yeah, European Video Tape format, forget it. geez I dont know what else to say.

please write me (if you want) and let me know how your new band is coming along and anything else thats on your mind.

Hi, Im 24 years old. I was born a white, lower middle class male off the coast of WAshington state. My parents owned a compact stereo component system molded in simulated wood grain CAsing and A record box set featuring Am rAdios contemporary Hits of the eArly seventies CAlled 'good vibrAtions' by Ronco. It had such hits as Tony orlando & DAwns "Tie A yellow ribbon" and Jim Croche's Time in a bottle. "Punk is musical freedom. It's saying, doing and playing what you want. Nirvana means freedom from pain and suffering in the external world and that's ~~my~~ close to my definition of punk rock" exclaims guitarist Kurt Kobain. ~~The weight of that quote~~ Nirvana try to fuse punk energy with Hard rock riffs, all within a pop sensibility. "Speaking of sensibility" adds bass guitarist CHRIS NOVOSELIC "I wish we had more sense, you know basic common sense, like remembering to pay your phone bill or rent". With the band inking a deal with D.G.C earlier this year the band is enjoying all the trappings that come with it. "Trapping, Schmapping fuck it man they throw us A few bones and the lights stay on for a while". rebuffs Drummer Dave Grohl. Hi,

Yeah, all Isms feed off one another, but at the top of the food chain is still the white, corporate, macho, strong ox~~e~~ male. Not redeemable as far as im concerned. I mean, classism is determined by sexism because the male decides whether All other isms still exists or. its up to men. ~~[illegible]~~ Im just saying that people can't deny any ism or think that some are more or less subordinate. ~~[illegible]~~ except for sexism. He's in charge He decides. I still think that in order to expand on all other isms, sexism has to be blown wide open, ~~[illegible]~~ It's almost impossible to de program the incestually-established, male oppressor, especially the ones whove been weaned on it thru their familys generations, like die hard N.R.A freaks and inherited, corporate, power mongrels, the ones who were born into no choice but to keep the torch and only let sparks fall for the rest of us to gather at their feet. But there are thousands of Green minds, young gullable 15 year old Boys out there just starting to fall into the grain of what theyre been told of what a man is supposed to be, and there are plenty of tools to use, ~~the most~~ the most effective tool is entertainment. The entertainment industry is just now

starting to accept us (mainly because of trendy falseness of environmentally, socially conscience hype) ie: the new 90's attitude, which is at a total standstill because of the patriotic, aftermath of the war and all its Nuremberg rally-parades) but they're using media! Media. Major labels. (the evil corporate Oppressors, (god I need a new word!) the ones who are in kahoots with the government, the ones the underground movement went into retaliation against in the early 80s,) The corporations are finally allowing supposedly subversive, alternative thinking bands to have a loan of money to expose their crusade, ~~[illegible]~~ obviously they aren't ~~[illegible]~~ forking out loans for this reason, but more because it looks to be a money making, comodity. but we can use them! we can pose as the enemy to infiltrate the mechanics of the system to start its rot from the inside. Sabotage the empire by pretending to play their game, compromise just enough to call their bluff. And the hairy, sweaty, macho, sexist dickheads will soon drown in a pool of razor blades and semen, stemmed from the uprising of their children, the armed and deprogrammed crusade, littering the floors of Wallstreet with revolutionary debris.

Assasinating both the lesser and greater of two evils. bringing an everlasting, sterile and bacterial, herbacious and botanical corporate cleansing for our

and

ancestors to gaze in wonderment and Awe. AWE! geezus christ. (repeat): posing as the enemy to infiltrate the mechanics of the empire and slowly start its rot from the inside, its an inside job - it starts with the custodians and the cheerleaders. And ends with the entertainers. The youth are waiting, impatiently. Homophobe VACCectomy.

Its like what [illegible] said about how in school there was this class that you went to and they were teaching the girls how to prepare themselves for rape and when you looked outside and saw the rapers outside playing football and you said "they are the ones who should be in here being taught not to rape".

How true. Suck em in with quality entertainment and hit em with reality. The revolution will be televised.

There's this new 24 hour channel on cable called the 90s, which is available only in a few states so far and it's magazine version can be seen on pbs (public broadcasting system) once a week, it's Pretty damn informative and it exposes injustices in a kind of conservative-/liberal format, but its new so it has to be that way. Ive seen it a few times and really liked it. Also Night flight is back. You know, the show that used to play new wave theatre?

We plan to use these shows and others if given the chance. Yeah I know, Im a confused, uneducated, walking cliche but I dont need to be inspired any longer, just supported.

Oh yeah, Gluttony. I almost forgot Gluttony. The band now has an image: the anti-gluttony, materialism & consumerism image which we plan to incorporate into all of our videos. The first one, Smells like teen spirit, will have us walking through a mall throwing thousands of dollars into the air as mall-goers scramble like vulchers to collect as much as they can get their hands on, then we walk into a jewelry store & smash it up in anti-materialist [redacted] fueled, punk rock violence. [redacted] then we go to A pep Assembly at a High school And the Cheerleaders have (A)narchy As on their sweaters and the Custodian-militant-revolutionarys hand out guns with flowers in the barrels to all the cheering students who file down to the center court and throw their money & Jewelry & Andrew dice Clay Tapes into A big pile then we set it on fire and run out of the building screaming. Oh, didnt twisted sister already do this?

Things that have been taken from me within the past 2 months: 1 wallet, drivers license etc.. $400 ~~00~~ three guitars (including the moserite) all my neato 70's effect boxes, apartment and phone. but [redacted] I got a really neato left handed 64 Fender Jaguar which is, in my opinon, almost as cool as a mustang. So I consider it a fair trade for the moserite.

while staying in LA.
We almost got killed by gang members.
well, sort of.

Dave Franz and I were in the parking lot of a famous, female-mudwrestler-night club scoring lewds, when all of a sudden two gass guzzling cars pulled up next to us and five cho-los with knives and guns walked over to the car closest to ours and started yelling & cursing in gang lingo at eachother. But then by the motto of "To protect and serve" the cops show up, which insighted the gang bangers to flee away in their cars, resulting in a hot pursuit-car chase. There were even helicopters with search lights.

Needless to say we scored our lewds and split. We played a really fun show with fits of Depression at a really small coffee house called the jabberjaw. We were indescribably fucked up on booze and drugs, out of tune and rather uh, sloppy. It took me about fifteen minutes to change my guitar string while people @ heckled and called me drunk Robyn Zander. (cheap trick lead singer?)

After the show I ran outside and vomited then I came back in to find Iggy pop there so I gave him A sloppy-puke breath kiss and hug. He's A really friendly and cool and nice and interesting person. It was probably the most flattering moment of my life.

As you may have guessed by now I've been taking a lot of drugs lately. It might be time for the Betty Ford Clinic or the Richard Nixon library to save me from abusing my enemic, rodent-like body any longer. I can't wait to be back at home (wherever that is) in bed, neurotic and malnourished and complaining how the weather sucks, and it's the whole reason for my misery. I miss you, Bikini Kill.

I totally love you.

Kurt

There is a small percentage of the population who were BORN with the ability to detect injustice. they have Tendencies to question injustice and to look for answers (by their oppressors standards) in ways that would be considered abnormal. They have Tendencies and talents in the sense that they know from an early age that they have the gift to challenge what is expected of their future.

These kids are usually hyperactive, uncontrollable brats who never know when to quit because their so wrapped up in whatever their trying to prove, that they eventually offend someone, not meaning to of course. This is good.

They usually go through childhood thinking their special. its partly instinctual and maybe theyve been told by their parents or teachers, that their special. maybe theyre put in a gifted childrens— over achiever class in grade school. for whatever reason they end up molding into a person aware of their abilities and not understanding them and having bloated egos caused by societys insistance that those with an overly-functional insight should be praised and considered to be on a higher level of easy access— towards success. Eventually they become totally confused and bitter adolescents who tend to see nothing but injustice because by that time they (usually) have had the chance to be exposed to others like them who learn from their gifted, bohemian ancestors. ancestors

coiciousnes The larger percent who have and always will dominate the smaller percent simply because their outnumber were not BORN with even the slightest ability to comprehend injustice. there are the stump dump Average Joe or Lawyers Garbagemen of life.

Its not their fault because they physically lack that special, extra group of cells in the brain that welcome a questioning conciousness. This is definitely not hereditary.

It is definitely not their fault.

They aren't simply misguided.

Of course the extremes and levels of the ability to detect injustice range all levels.

not described AS these people usually fit in the bracket that could be compared to the level of one who is marginally retarded.

You know, the ones who have the symptoms of mongoloid rings around the eyes yet they can still act on prime time television dramas.

All other so called talents like, dance, singing, acting, wood carving and Art is mostly a developmental culmination of exercise attaining perfection thru practice

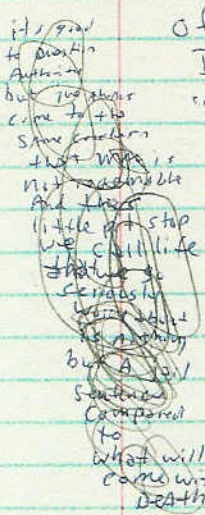
No True talent is fully organic.

born PASSION yet the obviously superior talented have not only control of study but that extra special, little gift at birth - fueled by passion. A built in, totally spiritual, unexplainable, New Age, fuckin, cosmic energy bursting love for passion.

And yes, they are an even smaller percent amongst the small percent. And they Are Special! mistrust All Systematizers.

All things cannot be evaluated to the point of total Logic or Science. No one is special enough to Answer that.

This is not to be taken seriously.
This is not to be read as opinions.
It is to be read as poetry.
Its obvious that I am on the educated level of about 10th grader in High school. It's obvious that these words were not thought out or even re-read, ~~[illegible]~~ this writing style is what I like to call thru the pospective of a 10th grader, her/his attempt at showing that no matter what level of intellizence one is on, we all question love and lack of love and fear of love.
Its good to question authority and to fight it just to make things a bit less boring, but ive always reverted back to the the Conclusion that man is not redeemable and words that dont necersarily have their expected meanings can be used descriptively in a sentence as Art. True english is so fucking boring. And this little pit-stop we call life, that we so seriously worry about is nothing but a small, over the Weekend jail sentence, compared to what will come with death.
life isn't nearly as sacred as the appreciation of passion.



if were going to be ghettoised, I'd rather be in the same slum as bands that are good like mudhoney, Screaming Tree, the Melvins and Beat happening rather than being a tennant of the Corporate Landlords regime.

there are a lot of bands who claim to be alternative and theyre nothing but stripped down, ex Sunset Strip hair farming bands of a few years ago

I would love to be erased from our association with pearl Jam or the Nymphs and other first time offenders.

Alternative bands have tried to the general public every year since the sex pistols and have failed every time not the fault of the bands but the times weren't right, the Reagan years were so effective in keeping out any chance of a better concience which is why there were so many great indie do it yourself bands throughout the 80s as Subverts towards Reagan because he was such a Creep.

But ive heard so many insanely exhaggerated wise tales and reports from my friends, and ive read so many pathetic, second rate, freudian evaluations from interviews, regarding our personalities and especially how im a notoriously fucked up heroine addict, alcoholic, self destructive, yet overly sensitive, frail, meek, fragile , compassionate, soft spoken, narcoleptic, NEUROTIC, little, piss ant who at any time is going to O.D , jump off a roof and wig out, blow my head off or all three at once because I CANT HANDLE THE SUCCESS! OH THE SUCCESS! THE GUILT! THE GUILT! OH, I FEEL SO INCREDIBLY GUILTY! GUILTY for abandoning our true commrades. the ones who are devoted. the ones who have been into us since the beginning. the ones who (in ten years when were as memorable as KAGA GOO GOO) will still come to see NIRVANA at reunion gigs at amusement parks. sponsored by depends diapers, bald fat and still trying to rawk. MY favorite reocurring piece of advice from concerned idiots is:"Man, you have a really good thing going. your band is great.you write pretty good songs and youve sold a shit load of records but, hey man, you should get your personal shit together. dont freak out and get healthy." Gee I wish it was that easy but honestly, I didnt want all this attention, but im not FREAKED OUT!which is something a lot of people might like to see. Its entertaining to watch A rock figure whos become public domain mentally self destruct. But im sorry ill have to decline. Id like to freak out for you . (maybe Crispin Glover should join our band.) At the end of the day I laugh my ass offk knowing ive gotten about 30¢ from this dork. Sometimes it feels as if weve pulled a minor rock and roll swindle because im not nearly as concerned with or about myself, the band or anyone as much as the media would like us to believe.

I think the problem with our story is that there isnt an exciting enough truth for a good story. Oh, and another thing. I am not a heroine addict!

for the past three years ive suffered a rather unconclusive and uncom fortable stomach condition. which by the way is not related to stress which also means is not an ulcer because there is no pattern to the burn ing , nausious pain in my upper abdominal cavity. its like russian roulette, I never know when it will come on, I can be at home in the most relaxed atmosphere, sipping natural spring water, no stress, no fuss, and then wham! like a shot gun.: stomach time is here again.then i can play 100 shows in a row, guzzle boric acid and do a load of television interviews, results: not even a burp. This has left doctors with no ideas except the usual, "Here Kurdt, try another peptic ulcer pill and lets jam this fibre-optic tube with a video camera on its end down your throat for the third time.(called an ENDOSCOPE)and see whats going on in there. yep, your in pain. the stomach lining is extremely red and inflamed. this could be life threatening. try eating ice cream from now on. Please lord! to hell with hit records, let me have my very own unexplainable, rare, stomach disease named after me. The title of our next double concept album could be called "COBAINS DISEASE" A rock opera all about vomiting gastric juices, being a borderline annorexic-Auschwitz-grunge-boy. And with this epic, an accompanying ENDOSCOPE rock video.

I am the product of seven months of screaming at the top of my lungs almost every night. seven months of jumping around like a retarded rheesus monkey. seven months of answering the same questions over and over. The cherub, little scruff youve grown to know from the back of the nevermind album is proof that film adds ten pounds to your body, because ive been the same bird weight since ive had the dreaded gut rot. Well ive spewed enough, probably too much but oh well. for every one opinionated, pissy, self-appointed rock judge-cermudgeon, theres a thousand screaming teenagers.

hope i die before i turn into Pete Townshend.

An industrial size garbage sack filled with liquid demerol, stomach bile, sweet cutgrass juice, the urine of extremely retarded, fetal alcohol syn syndrome victims from Costa Mesa who are one chromosone away from severely dangerous examples of why we will become a third world country in a matter of years. If this is the current state of the underground, youth culture Id rather retire to my big mansion petting my pot bellied pig, eating Hagen Dahs ice cream with this garbage sack I.V. , in an iron lung deprevation tank, submerged in a glassno no a gold aquarium filled with epsom salts with full visibility of a television monitor projecting endless footage of fishing and golfing programs as the grateful dead pumped through the speaker. Relaxing , lying naked except for a tie dyed T- shirt dyed with the urine of Phil Collins and the blood of Cherry Garcia, Ill be so relaxed and famous that an old man named Bob will travel miles to visit me. He will pull apart my pyles and stick it in. He will die just as he comes inside of me and all of his orgones and bad thoughts and desires for truth will soak into the walls of my lower intestines. I will be re-fueled. so re-fueled as to work up the energy to run on foot to the grave of Leadbelly, dig up his corpse and put us on a one way ticket to the Vatican. I will nail the corpse of Huddie in a corner of the ceiling, paint him white and decorate him with costume jewelry.

I tried heroine the first time in 1987 in aberdeen and proceeded to use it about 10 more times from 87 to 90. when I got back from our second European Tour with Sonic Youth I decided to use heroine on a daily basis because of an ongoing stomach ailment that I had been suffering from for the past five years had literally taken me to the point of wanting to kill myself. For five years even single day of my life. Every time I swallowed a piece of food I would experience an excruciating burning nauseous pain in the upper part of my stomach lining. The pain became even more severe on tour due to lack of a proper and regimented eating schedule and diet. Since the beginning of this disorder I've had 10 upper and lower Gastrointestinal procedures which found an enflamed irritation in the same place. I consulted 15 different doctors and tried about 50 different types of ulcer medication. The only thing I found that worked were heavy opiates. There were many times that I found myself literally incapacitated in bed for weeks vomiting and starving. So I decided ~~if~~ I ~~feel~~ like a junky as it is so I may as well be one. After the last European tour I vowed to never go on tour again unless my condition is either masked or cured. I did heroine for about one month then found myself realizing that I wouldn't be able to get drugs when ~~we~~ we go to ~~Japan~~ Australia and Japan so Courtney and I detoxed in a Hotel room

I went to Australia and of course the stomach pain started immediately. We had to cancel A few shows because the pain left me immobile doubled up on the bathroom floor vomiting water and blood. I was literally starving to death. my weight was down to about 110 lbs. I was taken to a doctor at the advice of my managment who gave me physeptone. ~~take Instead~~ The pills seemed to work better than anything else I've tried a a bit later into the tour I read the fine print on the bottle it read: "physeptone - contains methadone" Hooked again. We survived Japan but by that time opiates had started to take their toll on my body. and towing and I wasn't in much better health than I was off of drugs. I returned home to find that country had gotten hooked again so we checked ~~he~~ into a detox center for 2 weeks. She recovered. I instantly regained that familiar burning nausea and decided to ~~end~~ kill myself or ~~the~~ stop the pain. I bought a gun but chose drugs instead. I stayed on heroine until one month before frances due date. again I checked into a detox center and went through 2 months of the slowest process I have ever witnessed in recovery 60 days of starvation and vomiting. Hooked to an IV and moaning out loud with the worst stomach pain I have ever experienced. By the last 2 weeks I was introduced to a medicine called buprenorphine which I found elevates the pain within minutes. It has been used experimentally in A few detox centers for opiate and cocaine withdrawal. the best thing about it is that there are no known side effects. It acts as an opiate but it doesn't get you high. I've been on an increasingly smaller dose of it for nine months and haven't had a single stomach episode since. The potency range of beprenorphine is that of a mild barbiturate on a scale of 1 to 10 its a 1 and heroine is 10.

Such an easy thing - such a shiny ring
let me grow some breasts - I cheated on my test
I dont have the right - to say whats on your mind
your not allowed to sing - All Apologies

you have every right - to want to start a fight
~~treated like a dog~~ their dogs
~~it's gone on too long - treated like them~~
~~such an easy thing~~ - let my sister sing
what else can I do? - Im in love with you

Seven months ago I chose to put myself in a position which requires the highest form of responsibility a person can have. A responsibility ~~of which~~ that ~~I~~ should not be dictated ~~by thinking that I should rather want to~~ take on this responsibility. ~~When~~ Every time I see a television show that has dying children or seeing a testimonial by a parent who recently lost their child I can't help but cry. The thought of losing my baby haunts me every day.

I'm even a bit unnerved to take her in the car in fear of getting into an accident. I swear that if I ever find myself in a similar situation than you've ~~been~~ been in i.e. the divorce fight to ~~the~~ death to keep the right to provide for my child. I'll go out of my way to remind her that I love her more than I love myself. not because it's a fathers duty but because I want to out of love. And If Courtney and I end up hating eachothers guts we both will be adult and responsible enough to be pleasant to one another when our child is around us.

I know that you've felt for years that my mother has somehow brainwashed Kim and I into hating you. ~~which~~ I can't stress enough how totally untrue this is and I think it's a very lazy and lame excuse to use for not trying harder to provide your fatherly duties, I can't recall my mother ever talking shit about you until much later in the game, right around the last two years of High school. That was a time when I came to my own realizations without the need of my mothers input. Yet she ~~had the~~ noticed my contempt for you and your family and acted upon my feelings in accordance by taking the opportunity to vent her ~~frustrations~~ out on you. Every time she talked shit about you I've let her know

that I don't appreciate it and how unnecessary I think it is. I've never taken sides with you or my mother because while I was growing up I had equal contempt for you both.

initially this song was about coming of age during a time where your old enough to support yourself without the aid of your parents. A theme for the twenty somethings, if you will not. I've always felt that a person doesn't necessarily have to force themselves to love their parents simply because of blood. If you don't like your parents or relatives, don't fake it tell them how you feel and in my own way I decided to let my father know that I don't hate him. I simply don't have anything to say and I don't need a father son relationship with a person whom I don't want to spend Boring Christmas with. In other words; I love you. I don't hate you. I don't want to talk to you.

for many months I decided to take a break from reading rock magazines mainly to rest and clear my head from all the folk lore and current affair journalism that had been piling up since weve become a lot of peoples (dare I say) breakfast lunch and dinner gossip. Last month I thought Id take a peek at a few Rock mags to see whats going on and if things have cooled down.

Well, to my estimation many trees have been wasted on account of people bored and boring people who still like to waste space with NIRVANA Dreck. Years ago I knew better than to believe that every article in a news paper reported everything we need to Know as in all the facts man. I knew that newspapers, magazines and history books left out things or embelished based on the special interests of the political and moral beliefs of the share holders or owners of all printed matter. Do you think a History book from the South has basically the same information on the civil war as a history book printed for the northern school districts? Do you think A right wing, Christian owned news paper reports the same as mother Jones magazine? Well the rock literary world is a bit more confusing. Its not as cut and dry as the above refferences. People who write for music mags are a collective bunch who are at conflict every day.

As youve heard this cliché many times before music journalists are people who are paid to find as many interesting anectdotes of a musicians personality, and if there isnt enough they must spice it up and if it isn't still enough which is almost always the case then, In steps the editor. an editors job is not to correct grammatical errors. his or her job is to sell magazines and to sell magazines you need to have a cupboard full of spices. SO once again a journalist is almost always at the mercy of the editor. ironically journalists are the ones who obsessively try to prove that the musician has no control over their own creativity and ~~the record company~~ is dictated by their record company and the biggest ~~cliche of~~ and most overy used cliche of the journalist although is too true to ignore is the fact that most journalists have no idea of what its like to write a song, play an instrument or know what it's like to perform on stage in front of people.

The choice to become a music journalist is usually after ones realization that they are musically retarded. but theyve worked at tower Records and own a lot of Cds and rock biographies.

I found at an early age that the same people who share the same truth-withheld due to special interests conspiracy theory are usually the same people who are fans of politically motivated or music that leans towards elements of outspoken truths. punk rock. for the most part falls under this category. Quite a few years ago I felt that most of these people who listened to punk rock were aware of commercial Rock mag sensationalism and knew better than to believe what was written in these magazines which have always ignored underground or punk Rock bands because Punk Rock doesnt sell magazines; until now. just like new wave. punk rock has been cristened a new name by commercial magazines "Alternative music" And just like New wave only the most commercial bands are featured in these magazines.

The easiest way to advert from the chance of misrepresentation is to use the Queston Answer format. it has been proven for years that this is a safe and effective way to report the truth as long as all of the answers are printed in their entirety. when chris said "most Heavy metal kids are dumb." that was printed. what wasnt printed was the rest of it which was," and I was one of those dumb Heavy metal kids. Its not their fault because there are stupid Heavy metal bands carrying on the legacy of sexism and homophobia in white boy rock and roll." The most interesting thing about our supposed contradictory attitudes and statements made almost 2 years ago is that all of these interviews were conducted within a span of 2 to 3 months and anyone given the surprise of becoming instant rock stars against their will have the same thoughts running through their heads. Basically what we felt was a danger. the threat of losing contact with the very people whom we felt shared the same commercial/corporate magazine conspiracy theory as we did. But as it turns out pages and pages of letters bitching about our negative reactions (which were nothing more then precautionary) littered every fanzine this side of the world. In conclusion those same people who we felt an honest love and mutual bond with bought the current affair hype hook line and sinker. which has left us feeling betrayed. we simply wanted to give those dumb heavy metal kids (the kids who we used to be) an introduction to A different way of thinking and some 15 years worth of emotionally and socially important music and all we got was flack, backstabbing and pearl jam.

Nirvana's music (Jan. '92) is an explosion of excitement! Unfortunately, for me, you would never catch me at a Nirvana show standing side by side with sweaty juvenile headbangers—I would rather stand in an area infested with alligators.

I think I'll wait for MTV to swallow them up and turn them into snotty, ungrateful, monstrous assholes; then I can watch their overly exposed videos and watch their music career and personal lives become a circus for the media.

Hope I die before I turn into Pete Townshend.

At this point in our uh, career, before hair loss treatment and bad credit. I've decided that I have no desire to do an interview with Rolling Stone. We couldn't benefit from it because the Average Rolling Stone reader is a middle aged ex hippie - turned hippiecrite who embraces the past as "the glory days," and has a kinder, gentler, more adult approach towards liberal conservatism. The average Rolling Stone reader is middle has always been denied the underworlds musical options and have denied this unless it becomes an obviously safe commodity.

I've always felt it was kind of necessary to help out the "now Generation" internally destroy the enemy by posing as or using the enemy. but the now generation doesn't read Rolling Stone, so well just sit around and wait until the old school starves like dinosaurs while the diaper school begins to litter the floors of wall street with "Real love" - revolutionary debris. smells like thirty something.

I would only wear a tie dyed T shirt if it were dyed with the urine of phil collins and the blood of Gerry Garcia.

when I think of Right wing I think of Ronald Reagan (here as mayor in every state of the US.

When I hear the term Right-wing I think of Hitler and Satan and Civil war. when I think of Right wingers I think of terrorists ~~and~~ who plot to kill and terrorize the lives of planned parenthood practionists. The reality of actually getting an abortion in this country is very scarce right now due to Randell Terry and his prolife gestapo who gather in Churches dressed in the best camouflage ~~possible~~ (~~middle~~ lower-middle-class cameleon polyester from the wash racks of the home shopping network. IN the house of god, Operation Rescue, (Terr pet non profit organization) plot to unveil yet another helpful house hold hint to helping their duty as god fearing common folk. They either break into or enter during business hours posing as ~~patients at~~ abortion clinics and set off bombs which release a gas that will absorb into every inch of the clinic ruining every single instrument within that clinic. They put nails in the driveways of clinic staff and doctors. they make never ending threatening and violently abusive phone calls. ~~to clinic staff and doctors~~ They stand outside abortion clinics every day all day with pickets and loud, Violent and threatening words of wisdom from GOD. to anyone within miles often ~~of~~ physically stopping patients from entering. yes these people have criminal records. they have marksman ~~ship~~ and terrorist skills. They are way ahead of the game than their enemy. They steal fetuses from abortion clinic dumpsters and disposal receptitals and pass sometimes, hundreds of ~~fetus~~ mutilated fetuses between households to be stored in boxes or zip loc baggies in freezers and in the family garage. The ~~fetus~~ rotting deteriorating fetuses are then thrown at senators congressmen or just about anyone involved in government who is a Democrat. These people who are terrorists are also people who have basically the same beliefs as white Supremists who also claim to act and embrace their ideals on the grounds of GAWD.
They post names addresses and phone numbers of patients scheduled to have abortions and the doctors to be performing the operation. They have a computer network of information available everywhere in the united states. Right wing is the foulest, dirtiest, insult a person could be called. These people hate minorities of all color, they will perform mass extermination of everything that is not white, ~~Christ~~ god fearing and Right wing R is for Republican.
right now in the state of florida there are no available abortion doctors or clinics to be serviced by. Ethnic Cleansing is going on right now in the inner citys of the united states. Blacks, hispanicks and others are being exterminated before they can reach the fifth grade. The Right wing republicans ~~have been~~ are responsible for releasing, Crack and Aids in our inner cities. Their logic is~~be~~ to kill living breathing, free thinking humans rather than unknowing unstimulated, growing cells, Encased in A lukewarm Chamber.

remember that your older brothers cousins, uncles, and your fathers are not your role models. this means you do not do what they do, you do not do what they say. They come from a time when their role models told their sons to be mean to girls, to think of yourself as better and stronger and smarter than them. They also taught things like: You will grow up strong if you Act tough and fight the boys who are known as nerds or Geeks. [illegible] Boys will be smart and get good grades [illegible] must be sissies if they Act that way. Act so smart.

The early 80's saw the white-male-corporate oppressors acceptance of a new musical counterculture stemmed from the birth of Punk Rock. Well, the clash, the sexpistols and even the melodic accessability of the Ramones didn't break through into the mainstream.

The result of the major labels involvement ended with ex-punk bands compromising to such extremes that the only true successes were, gasp! Billy Idol or KAYA 900-900.

Its fourteen years later and theyre at it again. So called "Alternative" bands are being signed left and right and the ones with more of an edge towards compromise or mainstream are the ones who will be successful.

NIRVANA will put out a couple of more brilliant albums on their own terms and then become frustrated with being so close to general public acceptance and so in debt financially in debt, that they will eventually result in releasing spineless dance music like Gang of four.

In movies the filmmaker tries to depict true life instances. the most interesting occurrences during the subjects time frame are picked out of a span of time. Time is much longer than a movie can show and a viewer will have the patience for. therefore we don't realize how time plays such a significant part in the leading up to events. two people may have dinner for 2 hours but only 30 seconds of the most interesting parts of the conversation will be used. I feel time and a persons ability to understand time is very important its the only way I can relate to you the very real way a person becomes addicted to substances If we realize and remember things happen over a period of time. then we may understand how ~~one becomes instantly addicted~~ almost everyone who tries hard drugs ie! heroine and cocaine will eventually become literally, a slave to these substances.

I remember someone saying If you try heroine once youll become hooked. of course I laughed and scoffed at the idea but I now believe this to be very true. not literally. I mean If you do dope once you dont instantly become addicted it usually takes about one month of every day use to physically become addicted. but after the first time your mind say ahh that was very pleasant as long as I dont do it every day I wont have a problem. the problem is it happens over time. lets start with January 1st lets do dope for the first time. Concisously you wont do it again for maybe a month. February youll do it twice. march 3 days in a row. february. 3 days in a row and once more at the end of the month. march. maybe not at all. april 5 days in a row skip 3 once more. may 10 days in a row. during those ten days its very easy to lose track of time it may seem like 3 days but two weeks can go by. The effects are still as pleasant and you can still choose

what days you do it so naturally there must not be a problem. with everyone sometime at least once a year some sort of crisis happens to everyone, the loss of a friend or mate or relative this is when the drug tells you to say fuck it.
every drug addict has said fuck it more times than they can count. This example has only taken one page but within a year of casual heroine use the person has had more days off dope than on. It can slowly and gradually consume you because there are 24 hrs in a day and no one wants to be hooked. It doesn't happen as fast as it does in a movie because a movie quickly has to show all the juicy stuff within 2 hrs.
2 hrs out of 2 years worth of casual drug use is nothing. by the time youve said fuck it the long process of trying to stay off begins.
The first kick is usually easy if you have pills. you basically sleep. which is bad in my opinion because you think if its that easy I could get hooked and kick for the rest of my life.
by the second and third time it becomes very different. It takes sometimes 5 times longer. the psychological factors have set in and are as damaging as the physical effects.
every time you kick as time goes by it gets more uncomfortable. even the most needle phobic person can crave the relief of putting a syringe in their arm. people have been known to shoot water, booze, mouthwash etc...
drug use is escapism whether you want to admit it or not.
a person may have spent months, years trying to get help. but the amount of time one spends trying to get help and the years it takes to become completely drug free is nothing in comparison.
every junkie ive ever met has fought with it at least 5 years and most end up fighting for about 15 25 years. until finally they have to resort to becoming a slave to another drug the 12 step program which is in itself another drug / religion. If it works for you do it. If your ego is too big start at square one and go the psychological rehabilitative way. either way youve got at least 5 to 10 years of battle ahead of you.

I have since the beginning of my first revelation in alternative thought through the introduction of New Wave—then, Punk rock, then alternative soundtracks of Contemporary Classic Rock. Never in years of my awareness of sexism have I seen a more radically venomous display of sexism in my life than in the past two years. for years I've observed and waited like a vulture for any hint of sexism and I've found it in relatively small doses compared to the present state of Rock and Roll, from critics darlings to Samantha fox simply because one of the mem-
